If multiple applications are submitted, the Board may:

• Reject duplicate applications.

• Consider only the latest valid application.

• Cancel applications where multiple submissions appear to have been used to circumvent recruitment rules.

18 November 2026 to 20 November 2026

During the correction window, candidates may modify selected application fields.

---

18. Examination Structure

Section	Questions	Marks
Reasoning Ability	20	40

Total	**100**	**200**

Duration

90 minutes

Eligible candidates receiving compensatory time under the applicable provisions may receive additional time.

---

19. Marking Scheme

Each correct answer carries **2 marks**.

For every incorrect answer:

0.50 marks will be deducted.

There is no negative marking for an unanswered question.

Example

If a candidate answers:

• 70 questions correctly

• 20 questions incorrectly

• 10 questions unanswered

The score before any normalization would be:

70 × 2 − 20 × 0.50 = 130 marks

---

20. Normalization

If the Computer-Based Examination is conducted in multiple shifts, the Board may apply a statistical normalization procedure to account for differences in question difficulty between shifts.

The normalized score may be used for shortlisting candidates.

The exact normalization procedure, if applied, will be communicated through the recruitment instructions.

Candidates should not assume that the raw score alone will determine the final ranking when multiple-shift normalization is used.

---

21. Minimum Qualifying Marks

Indicative minimum qualifying percentages are:

Category	Minimum percentage
General	40%
OBC-NCL / EWS	35%
SC / ST	30%
PwBD	30%

Meeting the minimum qualifying percentage does not guarantee selection.

Shortlisting will depend on the number of vacancies, candidate performance, category requirements, normalization where applicable, and other selection conditions.
